# EXECUTIVE BOOK BRIEFING

SGR has developed a strategic partnership with Randy Mayeux, a professional book reviewer, who lives by the tagline, "I read the books so you don't have to."

Executive Book Briefings are dynamic 90-minute presentations that explore the concepts covered in trending, innovative business books. These sessions will stimulate a practical real-world discussion between your team regarding how a concept, idea, or practice applies to your local government environment.

Each Book Briefing includes a participant handout that provides a brief outline of the book, an abundance of key quotes, and discussion questions designed to prompt conversation among participants by helping bring the book's concepts to fruition in a relatable way. Book Briefings are an out-of-the-box and unconventional way to spice up employee engagement initiatives and increase opportunities for team building at every level of your organization.

Over the last 25 years Randy has done book briefings on hundreds of books. Contact SGR for a list of available titles.

Schedule an Executive Book Briefing for your next workshop or team meeting and let SGR help you Take the Lead, Play Bigger, and Multiply Your Impact!
