

CREATING A SERVANT LEADERSHIP CULTURE WORKSHOP

This one and a half-day workshop is designed to introduce not just the principles of servant leadership but also how to go about creating a culture of servant leadership throughout an organization.

Day 1- open to all employees

The first half of the day, we discuss the 12 Principles and how they apply to each person. In the second half of the day, we look at some case studies and let the participants discuss how well they are doing at living out those principles. There is no limit to the number of attendees on Day 1.

Day 2 - leadership team

Does not introduce any new material from Day 1, but instead takes a deeper dive into how your organization can begin to align systems with the 12 principles and develop a roadmap for how to implement these servant leadership principles into the system of your organization.

The Workshop features a variety of presentations and interactive learning activities that are designed to engage the participants and help each person put these principles into immediate action no matter what their position in the organization.

Highlights:

- The workshop focuses on the 12 Principles of Servant Leadership and how leaders can develop or strengthen the culture of their organization by implanting these principles throughout their organizational systems.
- Discover why the most effective leaders believe in serving others.
- Learn the key to staying focused on outcomes without damaging relationships.
- Discuss real case studies of the impact of servant leadership.
- Discover why servant leadership is the key to building trust and winning respect.
- Take a self-assessment to learn how to be better at practicing servant leadership.
